DEED OF DEDICATION

I the undersigned, Trenton A. This subdivision shall be known and designated as TIPPLE ACRES, a subdivision in Whitley County, Indiana. All rights-of-way of public roads, streets, and alleys shown and not heretofore dedicated, are hereby dedicated to the public. Front yard building setback lines are hereby established as shown on this plat, between which lines and the property lines of the street, there shall be erected or maintained no building or structure, except as in conformance with the requirements of the Whitley County Zoning Ordinance.

A perpetual easement is hereby granted to any private or public utility or municipal department, their successors and assigns, within the area shown on the plat and marked "Utility Easement," to install, lay, construct, renew, operate, maintain and remove conduits, cables, pipes, poles and wires, overhead and underground, with all necessary braces, guys, anchors and other equipment for the purpose of serving the subdivision or adjoining property with telecommunication, electric, gas, sewer, and water service as a part of the respective utility systems, and the right is hereby granted to enter upon the lots at all times for all of the purposes aforesaid.

The owners of land over which a Regulated Drain Easement right-of-way runs may use the land in any manner consistent with Indiana Code 36-9-27 and the proper operation of the drain. Permanent structures may not be placed on any right-of-way without the written consent of the Whitley County Drainage Board. Temporary structures may be placed upon or over the right-of-way without the written consent of the Board, but shall be removed immediately by the owner when so ordered by the Board or by the County Surveyor. Crops grown on a right-of way are at the risk of the owner, and if necessary, in the reconstruction or maintenance of the drain, may be damaged without liability on the part of the surveyor, the Board, or their representatives. Trees, shrubs, and woody vegetation may not be planted in the right-of-way without the written consent of the Board, and trees and shrubs may be removed by the surveyor, if necessary, to ensure the proper operation or maintenance of the drain.

Areas designated on the plat as "Drainage Easement" are hereby reserved to the County, or subsequent governmental authority, for the purpose of constructing, maintaining, operating, removing, and replacing stormwater drainage facilities, be it surface or subsurface, in accordance with plans and specifications approved by the Whitley County Engineer, or comparable agent of a subsequent governmental authority. Drainage Easements shall not be disturbed in a manner as to interfere with the flow of storm water and all grades shall be maintained as constructed. Responsibility for the maintenance of Drainage Easement stormwater facilities, including but not limited to periodic removal and disposal of accumulated particulate material and debris and mowing of common stormwater detention areas, shall remain with the owner or owners of property within the plat, and such responsibility shall pass to any successive owner.

The removal of any obstructions located in any Utility Easement or Drainage Easement by an authorized person or persons performing maintenance or other work authorized herein shall in no way obligate the person in damages or to restore the obstruction to its original form.

No owner of any Lot or any other parcel within this Plat shall at any time remonstrate against or attempt to cause the cessation of any farming operation, whether now existing or existing in the near future which interferes with the residential use of the Lot or tract owned by the person or the tract owned by the person or persons remonstrating. Any person accepting title to a Lot or tract within this Plat, acknowledges that general agricultural areas exist adjacent to or near this Plat, and that activities on such agricultural areas may result in normal farm interference such as noise, odor, dust, agricultural implement traffic, unusual hours, and other normal agricultural uses.

In addition to the Lots, Rights-of-way, Easements, and Building Lines dedicated on the face of this plat, the property is also subject to additional "Protective Covenants and Restrictions" that may be recorded together with this plat.

The foregoing covenants, or restrictions, are to run with the land and shall be binding on all parties and all persons claiming under them until January 1, 2048, at which time said covenants, or restrictions, shall be automatically renewed for successive periods of ten years unless amended through the Plan Commission. Invalidation of any one of the foregoing covenants, or restrictions, by judgment or court order shall in no way affect any of the other covenants or restrictions, which shall remain in full force and effect.

The right to enforce these provisions by injunction, together with the right to cause the removal, by due process of law, of any structure or part thereof erected, or maintained in violation hereof, is hereby dedicated to the public, and reserved to the owners of the lots in this subdivision and to their heirs and assigns.
